Looking for a position as
DATA SCIENTIST INTERN
3 or 4 month between
April 22nd and August 31st

ABOUT ME

Professional Googler since I am a child, I have never stopped to feed myself with all the knowledge the web brings to everyone. My creativity and my endless desire to build led me to entrepreneurship early.

TECHNICAL SKILLS

Data Science

Python - Numpy, Scikit-learn, Pandas, Scrapy, Beautiful Soup, Bokeh, Dash

R - Shiny, Tidyverse - Dplyr & Ggplot2

Databases - MongoDB, Elasticsearch, PostgreSQL , SQL, MySQL

Algorithms - Data Structures, Graphs, Dynamic Programming, Randomized Algorithms

Web

Python - Django, Flask
Javascript - React, jQuery, WebSocket
Server - Ubuntu, Nginx, Apache, SSH
Basics - HTML, CSS, SASS, LESS, Bootstrap

DevOps

Docker, Ansible, Terraform, Jenkins

PERSONAL SKILLS

Rational
I look for flaws and optimisation problems of each situation to solve them in the best of ways.

Curious
I deal with subjects I am fond of in depth.
I want to understand how things work.

Sociable
Open-minded, attentive, ask questions
Can handle conflicts

LANGUAGES

FRENCH 100 %   **ENGLISH** 75 %   **SPANISH** 50 %

PROJECTS

4 th year
Data Visualization in R
Exploration of Pokemon based datasets
Grade : A

Pokemon-Data-Visualization-in-R

3 rd year
A* implementation
Optimization of attribution costs - main usecase : shortest path finding
Grade : A

A-star-algorithm

EXPERIENCES

Jan. 2018 - Present
Co-founder @ Kooala
Developed the startup's C2C plateform
